

Professional Statement

I am Mohamad Iman Hafizuddin, a dedicated professional with a strong foundation in network security and cybersecurity. With a diploma in Network Security and currently pursuing a Bachelor in Computer System Security, I bring a blend of theoretical knowledge and practical experience to the table.

My journey in real world industry began as a Network Analyst at SLB, a global leader in new energy solutions. In this role, I grind my skills in troubleshooting network issues, utilizing ticketing systems to resolve issues on a global scale. Through this experience, I developed robust communication skills, collaborating with teams worldwide to escalate and address network challenges effectively.

Driven by a passion for technology and a desire to contribute to a secure digital landscape, I took the initiative to complete the Google Cybersecurity Professional Certificate. This comprehensive program equipped me with essential skills in threat recognition, risk management, security implementation, and incident response. Proficient in Linux command line, SQL, and Python, I leverage these tools to analyze and protect systems against cyber threats.

I am deeply committed to continuous learning and staying alongside of the latest cybersecurity trends and technologies. By embracing a proactive approach to skill development, I ensure that my expertise remains aligned with industry standards and best practices. I am eager to collaborate with professionals and contribute to the advancement of cybersecurity initiatives within your organization.

My dedication, passion for technology, and willingness to learn make me a valuable asset to any cybersecurity team. I am excited about the opportunity to leverage my skills and contribute to the success of your organization's cybersecurity objectives.

Thank you for considering my candidacy. I look forward to the possibility of joining your team and making a meaningful impact in the field of cybersecurity.
